

**T**HE AWARD-WINNING *Band-in-a-Box* is so easy to use! Just type in the chords for any song using standard chord symbols (like C, Fm7 or C13b9), choose the style you'd like, and *Band-in-a-Box* does the rest...

Leadsheet Harmonies

Bass Fretboard

**B**AND-IN-A-BOX automatically generates a complete professional quality arrangement of piano, bass, drums, guitar and strings in a wide variety of popular styles (Jazz, Pop, Country, Classical and more).

With *Band-in-a-Box*, you can input a typical song in just two minutes. You'll quickly build up a large library of your favorite songs!

### Uses your existing Multimedia setup

No external sound source or MIDI System required. *Band-in-a-Box* plays through your internal Sound Card (Sound Blaster, compatibles, QuickTime™, external MIDI modules, etc.).

### Packed with features for musicians, students & songwriters

- ✓ MIDI File Chord Interpretation Wizard – open up any MIDI file and *Band-in-a-Box* will automatically figure out the chords for you
- ✓ Melody Embellisher – embellish any Melody as it is played
- ✓ Guitar Styles – play accurate guitar voicings, in your choice of Pop, Jazz, Country or Folk guitar chording
- ✓ Guitar Tutor – analyze any song. Shows the chords that are playing on the guitar fretboard
- ✓ Chord Substitution Wizards – perform or practice a familiar song in a brand new way
- ✓ Chord Preview/Builder – instantly hear how a chord sounds
- ✓ Automatic Guitar Chord solos to any song – generate a guitar chord solo from any single note melody
- ✓ Automatically generate professional quality solos – includes 100 Soloists!
- ✓ Record melodies using the built-in sequencer or step-time entry
- ✓ View/edit the music and lyrics in piano roll or music notation
- ✓ Automatically generate complete songs from scratch, including chords, melodies, intro, & even a song title!
- ✓ Harmonize the melody or play along with harmonies in real-time
- ✓ Create and edit new songs, Styles, Harmonies, Melodists and Soloists
- ✓ Reads and writes Standard MIDI files (.MID) so you can transfer your work from/to other music programs
- ✓ Supports General MIDI (GM/GS), sound cards and non-GM modules/synthesizers
